XBRL Certified Software Software that has gained certification is entitled to the display the XBRL Certified Software logo. Wherever the logo is displayed online, it will be linked to a software certification page on this site, providing full details of the product's certification status. Certified software for the 2018 NETFILE program - Canada.ca Software developers must respect this limit to be certified for NETFILE. The CRA has determined that a limit of 20 returns, whether printed or filed using NETFILE, is appropriate and sufficient for a NETFILE software product. This will allow even a large family to share one software product to prepare and file their tax returns. The certified software configuration - IBM The certified system consists of: z/OS V2R3 Common Criteria Evaluated Base, which includes: z/OS V2R3 (program number 5650-ZOS) IBM Print Services Facility Version 4 Release 4 for z/OS (PSF V4.4.0, program number 5655-M32.

EFILE certified software for the 2018 EFILE program ... In mid-November of each year, the CRA provides the certification test returns to each software developer who has asked to be certified for EFILE. The developer uses these returns to test their software. **Certification - Wikipedia** Certification refers to the confirmation of certain characteristics of an object, person, or organization. This confirmation is often, but not always, provided by some form of external review, education, assessment, or audit. **Certified Software Testing Professional (CSTP) | Software** ... Software Testers are fundamental to the smooth running of enterprises, as they are responsible for intercepting risk, identifying bugs, solving software-related problems, and conducting test analysis. Software Testers are highly desired within organisations, and such testers are required to possess an abundance of specific skills.

Certified Software and Tools - Global Reporting Initiative If an updated version of the certified software or digital tool is developed the organization should reapply for certification for the new version. The process will be determined by the agreement signed by the organization and GRI during the initial certification process. **Certified data erasure - Certus Software** Certified data erasure: Erasure models, prices & conditions, and exemplary data reports to download for single or multiple devices. **Certified Software Tester: (CSTE) - Software Certification** The Certified Software Tester (CSTE) certification is intended to establish standards for initial qualification and provide direction for the testing function through an aggressive educational program.

International Software Testing Qualifications Board - Official Site ISTQB (International Software Testing Qualifications Board) is a not-for-profit association legally registered in Belgium.
